AI and Machine Learning Engineer

AI Engineer with over 2 years of experience in research and development. Currently working at Computermind Corporation focusing on academic research and technology development. Co-author of an academic paper for IEEE WCCI 2024. Specialized in generative AI, Deep Learning, and Transformer models. Experience with machine learning applications for industrial robotics and full-stack development. Based in Tokyo with advancing Japanese language skills.

WORK EXPERIENCE

AI and Software Engineer **04/2025 - Present**
Computermind Corporation • Tokyo, Japan

- Conduct academic research through comprehensive analysis of research papers.
- Develop new AI technologies for stakeholder projects using Python.
- Contribute to R&D initiatives in AI and machine learning solutions.

Research Assistant **10/2022 - 12/2023**
Public University of Navarre • Pamplona, Spain

- Researched AI projects using PyTorch deep learning frameworks.
- Co-authored academic paper for IEEE WCCI 2024.
- Developed diffusion model techniques for style-consistent character generation.
- Participated in two government-funded research projects.

Developer (internship) **09/2021 - 01/2022**
Tracasa Instrumental S.L. • Sarriguren, Spain

- Developed full-stack judicial procedure software solutions.
- Created feature mock-ups with client feedback integration.
- Worked in Agile, Scrum-based development environment.

EDUCATION

Bachelor's Degree in Computer Engineering **2022**
Public University of Navarre • Pamplona, Spain

Erasmus Exchange Program **2022**
Blekinge Tekniska Högskola • Karlskrona, Sweden

CERTIFICATIONS

Certified SAFe® 5 Practitioner **2021**
Scaled Agile, Inc.

PUBLICATIONS

Enhancing DreamBooth With LoRA for Generating Unlimited Characters **2024**
International Joint Conference on Neural Networks (IJCNN)
DOI: 10.1109/IJCNN60899.2024.10651300

SKILLS

Research & Development, Deep Learning, Artificial Intelligence, Machine Learning, Generative AI, Full-Stack Development, Scrum, Academic Research

Programming Languages

`Python` `PyTorch` `Pandas` `JavaScript` `React` `AngularJS` `HTML` `CSS` `C#` `Java` `C` `SQL` `.Net Framework`

Languages

English ..... Fluent
Japanese .....JLPT N3
Spanish ..... Native
French ..... Native
Basque ..... Native

AWARDS

Honors on bachelor's thesis: "Generating labeled human faces using GANs for emotion recognition"
Public University of Navarre

Second place in 2023 "AI Week" bachelor thesis contest
Cátedra Tracasa - Public University of Navarre
